PROJECTS

Car House: Car shop-based website

[Live Site](#) || [Client-Site-Code](#) || [Server-Site-Code](#)

About This Website:
- This is a car shop website.
- A full-stack website that has Firebase and React-Router.React has been used in this site to develop its UI. I uploaded all the data from MongoDB.
- It has a different dashboard for admin and users.
- If a user is not registered, he has to register first to book or check out their orders.

Al-Karim Travel Agency: Travel agency-based website

[Live-Site](#) || [Client-Site-Code](#) || [Server-Site-Code](#)

About This Website:
- This is a travel agency website.

- This site has been created using React JS, JSX, React-Bootstrap, Vanilla CSS, Firebase, Node JS, Express JS, MongoDB for the database.
- This website has a logged-in method with an Email & Password and a direct Google Sign-in method.

Al-Karim Hospital: A medical care-based website(Frontend)
Live-Site || **Code-Link**

About This Website:
- This is a front-end-based hospital website.
- This site has a login and register authentication system by firebase.
